

Service Provider Program entry Requirements

Wakandi Tanzania LTD

Last updated: 2nd of June 2021

Abstract

This Appendix describes how the Service Provider and Wakandi will work together collaboratively. The Service Provider must meet all conditions listed in the Service Provider Program Requirements in order to act as a representative for Wakandi and the CAMS system.

Wakandi reserves the rights to update and/or replace content in the Service Provider Program Requirements when necessary and at its own sole discretion. If terms are updated or replaced, Wakandi is obliged to inform the Service Provider in writing no less than 2 weeks before such changes take effect.

Program Entry Requirements

CAMS training programme

The Service Provider, and all of the Service Providers employees who will be engaged with the CAMS system in any capacity (sales, support, training, etc), are required to complete the Introduction to Wakandi training programme and watch the introductory video for CAMS.

Equipment

The Service Provider must make sure that any employee engaged with the CAMS system in any capacity (sales, support, training, etc) has the necessary tools at their disposal. For avoidance of doubt, Wakandi does not provide the Service Provider or its employees or consultants with any hardware. It is the Service Providers sole responsibility to provide the equipment necessary to effectively deliver upon their obligations as an Service Provider.
